

Avanti High School Planned Construction Bond Investments Election Day: February 9, 2016

Avanti High School

Proposed Bond Investments:

Olympia School District will voluntarily expand Avanti High School enrollment in order to reduce enrollment pressure on the district's two comprehensive high schools — Capital High School and Olympia High School.

Specifically, the bond includes \$9.9 million for light remodels of the Knox building and the warehouse and gym.

Avanti High School will need updates to the restrooms, the kitchen and science labs. In addition, curriculum offerings will be expanded based on the warehouse remodel/update.

In order to expand Avanti High School, the district's administration building will be moved to the newly purchased Olympian Building. Light repairs of the Olympian Building will also be purchased within the bond.
