2. Department Updates - 30 minutes

Communications - Susan

i.

o Technology - Marc

- i. Change to Wifi - We would like to change how our wireless network looks and operates to make it more simple, secure and relevant. We are hoping to create only 1 wireless network (OSD WiFi) that all people (staff, students, visitors) would log into. Based on the log-in, appropriate filter levels and rights would be given to the user. We would then make a change to the OSD Public network to go back to turning on at 2:45PM and off at 7:30AM.

We will want to develop a communications plan around this change, so that all staff and students are aware.

- ii. DII - The teachers seem to be doing well, really adjusting to having the technology in their rooms full-time. We've introduced Schoology to them (I'll demo it for the group next Cabinet?) and many of them are starting to use it to deliver classroom content, assessments, communication, etc.

We have a full DII (all schools) cohort meeting tonight, but it is entirely online. We will be doing it through Google Hangouts and recording it directly to YouTube. The meeting is at 4 and if anyone wants to join, let me know.

- **SPED and Student Support - Kari**
