
SCHOOL FACILITIES—EQUITABLE ACCESS

The Olympia School District will ensure that students at Capital High School (CHS) and Olympia High School (OHS) have equitable access to athletic equipment and facilities at each school. Equitable equipment and facilities at each school must be the result of all plans, proposals, purchases and construction of high school athletic equipment and facilities for CHS and OHS. The policy does not require identical equipment and facilities at each school, and does not preclude improvements at one school in advance of an identical or similar improvement at the other school, so long as the period between improvements is reasonable. However, any equipment or facilities purchased or constructed after similar facilities have been constructed at one school, must be at least equal in kind and quality as those already purchased or constructed.

The exception to this policy is that Ingersoll Stadium is the only stadium for the District.

POLICY ADOPTED
