Budget: Jennifer P. reviewed potential ranges of support from the state legislature. It is beginning to look more and more that the dollars will be minimal. The best news is that resources appear to be available to eliminate the furlough days.

Computer Training Room: It appears we will be able to install a technology lab in the Knox building for training. It is hoped this will happen over the summer. We will use existing space on the third floor.

Evaluations: Dick reminded all to complete staff evaluations in a timely manner.

Hard to Fill Positions: The district, like all districts, has trouble filling certain positions. In some districts, signing bonuses or differential pay is granted. The relative merits of both was discussed. There is no plan to do so at this time.

Roosevelt Principal Selection: Dick reviewed the Roosevelt Principal selection process. He complimented the Roosevelt staff for an excellent job.
