Our School Improvement Plan...

Capital High School completed a self-study during the 2000-2001 school year. Recommendations from that evaluation lead to the following five-year building goals.

1. To closely align Essential Academic Learning Requirements with subject and classroom specific instruction.
2. Interpersonal Relationships: Respect, Integrity, and Accountability – As a school community we will work together to create a learning environment in which people feel safe and valued.
3. Improve the use of technology to support the classroom and communicate within the Capital High School educational community.
4. Provide all students equal opportunity to access programs and curricula. Balance within Programs: Multifaceted problem dealing with a diverse learning community and how to provide equity within and between our curricular and co-curricular programs.
5. Address the Tolerance of Drug, Alcohol, and Substance Abuse – The Capital community will develop programs and procedures that decrease the opportunity and the incidents of substance use and abuse while raising the level of awareness.
