General Information

LOCATION OF SUMMER SCHOOL?

All classes will be held at the ORLA campus
2400 15th Ave SE, Olympia, WA 98501

Who can attend summer school?

Olympia School District students.

Pre-Registration Dates / Times / Location

If you would like to pre-register and have any questions:
Monday, June 5 Capital HS Counseling Center, 6-8 p.m.
Monday, June 12 Capital HS Counseling Center, 6-8 p.m.
Monday, June 19 Capital HS Counseling Center, 6-8 p.m.
Late registrations for the high school program, due to OSD's grades expected on Sunday June 25th & 4th holiday.
Walk in Wednesday-Friday, July 5-7 ORLA, 9 a.m. – 12 noon

When are classes held?

Classes are 9am-noon Monday- Thursday. Students will study on campus at ORLA four days per week. No lunch served. Exception NO SCHOOL July 4 (this day will be made up Friday July 7). Unless noted by the instructor.

How many classes can I take?

Students may register for one APEX class at a time. Once completed, they may register for another. There will be a counselor on staff to help decide the next needed class per the student's transcript.

How is Summer School funded?

The cost for each course is \$100. OSD subsidizes the rest.

Is financial assistance available?

The Olympia School District may offer tuition assistance to those who qualify.

What are the attendance policies?

Olympia Summer School expects regular and punctual attendance. More than 2 absences, excused or unexcused, may cause a student to be dropped from the class. Although extenuating circumstances may exist, special arrangements for vacations or camps must be made with individual teachers. Students are released from class when all coursework is complete.

What is an APEX course?

APEX courses combine elements of online independent learning with some class time. Students will attend class 4 days per week for three-hour sessions. During this in-class time, students will be expected to complete written assignments and online work. Outside of class, students are expected to complete a pre-determined number of hours and to complete written assignments. Failure to maintain APEX teacher-assigned pacing schedule may cause a student to be dropped from the class.

Course Descriptions

APEX Language Arts Foundations

0.5 Elective Credit

For students working to build skill and develop strategies in reading and writing.

Helps struggling readers develop mastery in the areas of reading comprehension, vocabulary building, study skills, and media literacy. Helps struggling writers build confidence in composition fundamentals by focusing on the areas of composing, grammar, style, and media literacy.

APEX English 9th Grade

0.5 Core Credit

For students working to retrieve 9th Grade English credit from First or Second Semester

Offers a valuable introduction to the study of literature and the reading of informational texts, and it offers ample opportunity to practice composition writing. Students read literature from around the world in the following genres: short story, poetry, memoir, autobiography, drama, and epic. They also read examples of informational writing, such as letters, Web sites, magazine and newspaper articles, speeches, and movie or book reviews.

APEX English 10th Grade

0.5 Core Credit

For students working to retrieve 10th Grade English credit from First or Second Semester

Students work with their knowledge of literary elements to read critically and practice effective composition writing. Students read literature from around the world in the following genres: short story, poetry, drama, and the novel. They also read examples of informational writing, such as letters, websites, magazine and newspaper articles, and speeches.

APEX English 11th Grade

0.5 Core Credit

For students working to retrieve 11th Grade English credit from First or Second Semester

Offers a literature and composition course organized as a survey of American literature. The course builds

literary and communication skills, including reading, writing, language appreciation and aesthetics, listening and speaking, viewing and representing, and research.

APEX World History

0.5 Core Credit

For students working to retrieve World History credit from First or Second Semester

Covers major events in world history, including the development and influence of human-geographic relationships, political and social structures, economics, science and technology, and the arts. Students investigate the major religions and belief systems throughout history and learn about the importance of trade and cultural exchange. Other topics include the development of agriculture, the spread of democracy, the rise of nation-states, the industrial era, the spread of imperialism, and the issues and conflicts of the 20th century.

APEX U.S. History

0.5 Core Credit

For students working to retrieve U.S. History credit from First or Second Semester

Traces the nation's history from the pre-colonial period to the present. Students learn about the Native American, European, and African people who lived in America before it became the United States. They examine the beliefs and philosophies that informed the American Revolution and the subsequent formation of the government and political system. Students then investigate the economic, cultural, and social motives for the nation's expansion, as well as the conflicting notions of liberty that eventually resulted in civil war. Students probe the economic and diplomatic interactions between the U.S. and other world players while investigating how the world wars, the Cold War, and the "information revolution" affected the lives of ordinary Americans.

APEX Economics

0.5 Core Credit

For students working to retrieve social studies credit

Covers fundamental properties of economics, including an examination of markets from both historical and current perspectives; the basics of supply and demand; the theories of early economic philosophers such as Adam Smith and David Ricardo; theories of value; the concept of money and how it evolved; the role of banks, investment houses, and the Federal Reserve; Keynesian economics; the productivity, wages, investment, and growth involved in capitalism; unemployment, inflations, and the national debt; and a survey of markets in areas such as China, Europe, and the Middle East.

APEX Psychology

0.5 Core Credit

For students working to retrieve social studies credit

Provides a solid overview of the field's major domains: methods, biopsychology, cognitive and developmental psychology, and variations in individual and group behavior. Each topic clusters around challenge questions, such as "what is happiness?" Students answer these questions before, during, and after they interact with direct instruction.

APEX Algebra Prep

0.5 Elective Credit

For students who are working to build readiness skills to prepare them for future algebra courses.

Provides a curriculum focused on beginning algebraic concepts that prepare students for success in Algebra I. Topics include integers; the language of algebra; solving equations with addition, subtraction, multiplication, and division; fractions and decimals; measurement; exponents; solving equations with roots and powers; multi-step equations; and linear equations.

APEX Algebra I

0.5 Core Credit

For students working to retrieve Algebra I credit from first or second semester

Students will deepen their conceptual understanding of key algebraic concepts, work toward computational fluency, and extend their knowledge of problem-solving applications. Topics include an Introductory Algebra review; measurement; an introduction to functions; problem solving with functions; graphing; linear equations and systems of linear equations; polynomials and factoring; and data analysis and probability.

APEX Algebra II

0.5 Core Credit

For students working to retrieve Algebra II credit from First or Second Semester

* A scientific calculator is required; a graphing calculator is optional.

Students will deepen their conceptual understanding of key ideas and solution strategies, and extend their knowledge in a variety of problem-solving applications. Topics include functions, relations, and their graphs; quadratic functions; inverse functions; and advanced polynomial functions. Students also cover topics relating to rational, radical, exponential, and logarithmic functions; sequences and series; and data analysis and probability.

APEX Geometry

0.5 Core Credit

For students working to retrieve Geometry credit from First or Second Semester

Students will deepen their conceptual understanding of key ideas and solution strategies, and to extend their knowledge in a variety of problem-solving applications. Course topics include reasoning, proof, and the creation of a sound mathematical argument; points, lines, and angles; triangles; quadrilaterals and other polygons; circles; coordinate geometry; and three-dimensional solids.

APEX Health

0.5 Core Credit

For students working to retrieve Health credit

Helps students develop knowledge, attitudes, and essential skills in a variety of health-related subjects, including mental and emotional health; nutrition; physical activity; substance use and abuse; injury prevention and safety; and personal health, environmental conservation, and community health resources.

Fit-for-Life (at Olympia HS)

0.5 Core Credit

For students working to earn PE credit

Schedule: M/W/F 8-10 a.m. in the Weight Room; T/Th 5-7 p.m. in the Auxiliary Gym

This physical education class offers a combination of fitness activities to help students increase their current levels of fitness in areas of strength, endurance, and flexibility. Activities will include weight training, running, jump rope, basketball and other strengthening activities. Students will complete 40 hours of class time and also contract with the instructor to complete an additional 30 hours of lifetime sports activities. ***There will be a mandatory first class meeting on July 3 at 8 a.m. in the OHS Weight Room.***

APEX 3rd Year Math (Personal Finance)

0.5 Core Credit

For students working to retrieve Personal Finance or other 3rd-year Math credit from the 1st or 2nd semester

For students with a High School and Beyond Plan. These courses will not meet minimum math requirements for 4-year colleges. Students taking these courses typically have alternative plans to a 2 or 4 year college.

The purpose of this course is to provide students with the basic knowledge required to make some of life's most important financial decisions such as finding a job, money management, apartment and house hunting, buying a car, budgeting, protecting yourself as a consumer, wise use of credit, and gaining insight into the world of investing and banking. This course will also inform students of their financial responsibilities as citizens, students, family members, consumers, and active participants in the business world through a fun and entertaining computer simulation. This class can qualify for a student's third year of Math, if all criteria are met.

Work Base Learning

.5 CTE or Elective credit

Earn elective or occupational CTE credit if you have a job with verifiable wages and hours during the summer months and you will work between 90-180 hours. Mandatory meeting 10 am at ORLA Auditorium July 3.

APEX Science

.5 core credit

Physical Science offers a focused curriculum designed around the understanding of critical physical science concepts, including the nature and structure of matter, the characteristics of energy, and the mastery of critical scientific skills.

Washington State History

Graduation Requirement

This course is designed for high school students who did not study Washington State history in middle school or failed Civics in high school and need to complete the requirement for WA State graduation. Throughout the course, themes such as social history, the effects of migration, the principles of a democratic government, and the relationship

between humans and their environment are examined to allow students to draw connections between the past and the present, across cultures in Washington, and among multiple perspectives.

Middle School Program

Summer School helps students to obtain and reinforce important skills, fill in gaps in learning, and become better prepared for the upcoming school year.

Recommendations for students to attend Summer School are based on a handful of factors: learning deficiency, teacher/counselor/administrative/parent referrals, and classroom performance.
