

This is NOT a school-sponsored activity. The Olympia School District has neither reviewed nor approved the sponsoring organization or its program, personnel, and activities announced in this flier. The sponsoring organization and participants agree to protect, indemnify, and hold harmless the District, its Board of Directors, employees, and agents, from any and all claims, liabilities, damages, expenses or rights of action, directly or indirectly attributed to the organization, or its program, personnel, and activities. Permission to distribute this flier should not be considered an endorsement or recommendation of the program by the District.

Bring Your Students Aboard!

Day and Overnight Programs aboard schooner *Adventuress*

When you join us for a **sail** on the **Schooner Adventuress**, your group will take part in an active **learning and working** voyage.

Sound Experience's **school and youth group** programs are designed to spark the imagination and foster an interest in **science, leadership, maritime and the environment**.

STUDENT FIELD TRIPS

- Sound Experience uses a variety of developmentally appropriate strategies to meet the diverse learning needs of our participants.
- Using the framework of "Ship as Teacher," concepts such as systems, sustainability, teamwork, and responsibility to self and community are fully experienced rather than merely observed.
- Sound Experience Learning Stations naturally align with the Next Generation Science Standard focus on real-world phenomena and embrace the 7 Ocean Literacy Principles.

PROGRAM THEMES

Sound Experience offers four themed options for your day or overnight program. Within each theme is a specific selection of learning stations that might include Marine Life, Plankton, Ocean Acidification, Nautical Skills, Navigation, Mechanical Advantage and Life Aboard Ship. Each station complements each other to create a cohesive learning experience.

- **Emerging Issues in the Salish Sea:** Identify major environmental issues of the region and learn how we as a community can have an impact.
- **Marine Trades:** Learn about the importance of the marine trade industry and its impact in our region.
- **Marine Ecology:** Discover a deeper understanding of the Salish Sea and its inhabitants.
- **Becoming a Mariner:** Explore the many skills required to become a mariner on the Salish Sea

THE PROGRAM

Sound Studies (day) and Sound Explorations (overnight) programs are hands-on 3-5 hour day experiences and 3-6 day voyages that encourage young people to become sailors and stewards. Students connect history to today's relevant issues affecting our waterways and oceans. They learn about the role of plankton, the problem of microplastics and how our daily actions can make a difference.

When you join us on a sail, your group will take part in an active learning and working voyage. On board *Adventuress*, students are able to experience how community, nature, culture and infrastructure all interact and shape each other. Throughout the entire sail, students work with crew to raise the sails, steer the ship, sing sea shanties, and participate in interactive learning stations.

SOUND STUDIES FIELD TRIPS

For up to 45 people, grades 3-12

3-Hour Sail Cost:

- Peak (May-Sept): \$1,210
- Off Peak (Mar, Apr, Oct): \$1,150

5-Hour Sail Cost:

- Peak (May-Sept): \$1,760
- Off Peak (Mar, Apr, Oct): \$1,675

SOUND EXPLORATIONS FIELD TRIPS

Overnight trips for 3 to 10 days, up to 24 people ages 10 and up.

- Peak (May-Sept): \$2,900/per day
- Off Peak (Mar, Apr, Oct): \$2,780/per day

Sound Experience sails the historic schooner *Adventuress* to educate, inspire, and empower an inclusive community that works to improve our marine environment and celebrates our maritime heritage.

CELEBRATING 30 YEARS! 1989-2019
