
FEDERAL AND/OR STATE FUNDED SPECIAL INSTRUCTIONAL PROGRAMS

The District will participate in those programs which are funded by state or federal governments for which a local need can be defined and for which a local program would be developed if funds were available. Board approval will be required before submission of an application for such a program.

The Superintendent will develop procedures for planning, implementation and evaluation of a program in compliance with the rules and regulations of the funding agency.

It is the Board's intent that Title 1 funds be used efficiently and effectively to benefit the academic opportunities and progress of students in school-wide or Targeted Assistance Programs.

Title 1 funds will be used to provide educational services that are in addition to the regular services provided for district students. By adoption of this policy, the Board ensures equivalence among schools in teachers, administrators and auxiliary personnel and equivalence in the provision of curriculum materials and supplies.
