
PROFESSIONAL BOUNDARIES

The purpose of this policy is to provide all staff, students, volunteers and community members with information to increase their awareness of their role in protecting children from inappropriate conduct by adults.

The Olympia School District Board of Directors expects all staff members to maintain professional, moral and ethical standards in their interaction with students. Staff members are required to maintain an atmosphere conducive to learning, through consistently and fairly applied discipline, and established and maintained professional boundaries.

The interactions and relationships between staff members and students should be based upon mutual respect and trust, an understanding of the appropriate boundaries between adults and students in and outside of the educational setting, and consistency with the educational mission of the District.

Staff interactions with students must serve an educational purpose. An educational purpose is one that relates to the staff member's duties in the District. Additionally, staff members are expected to be sensitive to the appearance of impropriety when interacting with students. Staff members are expected to discuss issues with their building administrator or supervisor whenever they suspect or are unsure whether conduct constitutes a violation of this policy.

Employees whose conduct violates this policy may face discipline and/or termination, consistent with the District's policies, acceptable use agreement and collective bargaining agreements, as applicable.

The Superintendent or designee will develop staff protocols for reporting and investigating allegations, and develop procedures and training to accompany this policy.
